

CURRICULUM VITAE

Dr. Rage Uday kiran,
Specially Appointed Project Assistant Professor,
Institute of Industrial Science,
The University of Tokyo,
Komaba, Meguro-ku, Tokyo, Japan.

Mobile : (81)-80-4834-0999

e-mail : uday_rage@tkl.iis.u-tokyo.ac.jp, uday.rage@gmail.com

URL : www.udayrage.com

1. Current Working Details

- a. Specially Appointed Research Assistant Professor at Kitsuregawa Lab, Institute of Industrial Science, The University of Tokyo, Tokyo, Japan.
- b. Researcher at National Institute of Information and Communication Technology, Tokyo, Japan.

2. Education

Course	College/University	Year of Passing	Marks
Ph. D. (Computer science)	International Institute of Information Technology, Hyderabad, Telangana, India.	2005-2011	7.13/10
MS (IT in Agriculture)	Dhirubhai Ambani Institute of Information and Communications Technology, Gandhinagar, Gujarat, India.	2003-2005	3.24/4
B-Tech (Agriculture)	Agricultural Engineering College, Bapatla, Andhra Pradesh, India.	1999-2003	7.25/10
Intermediate (12 th class)	Sri S. Siva Reddy Junior College	1997-1999	628/1000
10 th class	Nagarjuna English Medium High School	-1997	413/600

3. Awards

- a. Best research poster award in IBM-ICARE 2010.
- b. Government merit seat to study B.Tech in India. More than 100,000 students have written the exam.

4. Research Interest

Database systems; Dataware housing and Data mining; Web mining; Recommender systems, Urban transportation; Geographical information systems and Remote sensing; Spatial, Temporal and Spatio-temporal data mining.

5. Teaching Experience

1. Worked as a Teaching Assistant (TA) in IIIT-Hyderabad. Courses: Operating systems, Database systems, Data warehousing and Data mining, Web mining, Advanced data mining.
2. From 2009 to 2011, worked as a part-time faculty member in BITS Pilani Work Integrated Learning Program. Courses covered includes Operating systems, Object oriented programming, Database systems and Data warehousing.

6. Research Experience

6.1. M.S. Students mentored by R. Uday Kiran

- Name: S. Bhargav
Degree: Master of Science by Research
Thesis Title: Data analysis approaches for improved online banner advertisement placement and identifying changes in suitable crop cultivation period, June 2011.
- Name: Akshat Surana
 - Degree: Master of Science by Research
 - Thesis Title: Interestingness measures for rare association rules and periodic-frequent patterns, October 2011.
- Name: Somya Srivastava
 - Degree: Master of Science by Research
 - Thesis Title: Discovering diverse-frequent patterns in transactional databases, October 2012.

6.2. M.S. Students co-supervised by R. Uday Kiran

- Name: Anirudh Alampally
Degree: Master of Science by Research
Thesis Title: Mining Periodic Frequent Patterns using Period Summary and Map-Reduce, December 2017.
- Name: J. N. Venkatesh
Degree: Master of Science by Research
Thesis Title: Improved Approaches to Mine Periodic-Frequent Patterns in Non-Uniform Temporal Databases, March 2018.

6.3. M.S. Students currently under the co-supervision by R. Uday Kiran

- Name: Kotani Amulya
Degree: Master of Science by Research
Status: Thesis in progress
- Name: T. Yashwanth
Degree: Master of Science by Research
Status: Thesis in progress.
- Name: Pradeep
Degree: Master of Science by Research
Status: Research in progress
- Name: Saideep
Degree: Master of Science by Research
Status: Research in progress

7. Research projects

7.1. Development of all-weather road congestion prediction model

- a. **Place** : National Institute of Information and Communication Technology
- b. **Duration** : 2017 – 2019
- c. **Technologies**: Java, C++, Postgres
- d. **Description**: In this project, we have developed a novel association rule based ensemble classifier for predicting road congestion in Japan. Fast, scalable and parallelizable algorithms were developed for the classifier. Experimental results demonstrated that the proposed model has outperformed the existing state-of-the-art classifier by a very large margin.

7.2. Design and development of eSagu™ system into Smart phones

- a. **Place** : IIIT-H.
- b. **Funding agency** : Nokia, Finland and Media Lab Asia, Ministry of Information and Communication Technologies, New Delhi, India.
- c. **Duration** : 2006-2010
- d. **Technologies** : Java, J2ME, GPS, MYSQL.
- e. **Description:** The eSagu: An IT based Agro-advisory system (www.esagu.in) is system aimed at effective delivery of agricultural information to the (Indian) farming communities. In this project, we are make efforts to develop effective **human-mobile interactive** systems which will enable illiterate farmers to effective use mobile phones for acquiring necessary information.

7.3. Design and development of eSaguGIS system.

- a. **Place** : IIIT-H.
- b. **Funding agency** : Media Lab Asia, Ministry of Information and Communication Technologies, New Delhi, India.
- c. **Duration** : 2005-2007
- d. **Technologies** : Java, Map server, Apache web server and MYSQL (spatial).
- e. **Description:** In eSagu system, a set of agricultural experts delivers advices to a village. For effective advice delivery and monitoring of farm specific problems, spatial information is one of the key component. Hence, we are making efforts to provide necessary spatial information to the agricultural experts which will enable them to analyze the farm conditions in a particular village effectively.

8. Research publications (SERIAL NUMBER IS BASED ON PUBLICATION ORDER)

8.1. Journal publications

S. No.	Publication	Citation count	Impact factor
11	R. Uday Kiran, Alampally Anirudh, Chennupati Saideep, Masashi Toyoda, P. Krishna Reddy, Masaru Kitsuregawa: Finding Periodic-Frequent Patterns in Temporal Databases using Periodic Summaries. To be appeared in the Journal of Data Science and Pattern Recognition	NA	7.69
10	P Fournier-Viger, Peng Yang, Zhitian Li, JCW Lin, R. Uday Kiran: Discovering Rare Correlated Periodic Patterns in Multiple Sequences. To be appeared in the journal of Data and Knowledge Engineering	NA	1.467
9	P Fournier-Viger, JCW Lin, <u>RU Kiran</u> , YS Koh, R Thomas: A survey of sequential pattern mining. Data Science and Pattern Recognition 1 (1), 54-77 (2018)	102	NA
8	J. N. Venkatesh, <u>R. Uday Kiran</u> , P. Krishna Reddy, Masaru Kitsuregawa: Discovering Periodic-Correlated Patterns in Temporal	1	NA

	Databases. T. Large-Scale Data- and Knowledge-Centered Systems 38: 146-172 (2018) [EI]		
7	<u>R. Uday Kiran</u> , J. N. Venkatesh, Masashi Toyoda, Masaru Kitsuregawa, P. Krishna Reddy: Discovering partial periodic-frequent patterns in a transactional database. Journal of Systems and Software 125: 170-182 (2017) [EI]	9	2.278
6	<u>R. Uday Kiran</u> , Masaru Kitsuregawa, P. Krishna Reddy: Efficient discovery of periodic-frequent patterns in very large databases. Journal of Systems and Software 112: 110-121 (2016) [EI]	22	2.278
5	<u>R. Uday Kiran</u> , Masaru Kitsuregawa: Efficient discovery of correlated patterns using multiple minimum all-confidence thresholds. J. Intell. Inf. Syst. 45(3): 357-377 (2015) [EI]	5	1.107

9. Academic service

1. Program committee member for DEXA, DAWAK, PAKDD, AUSDM and BDA.
2. Reviewer for many reputed Journals IEEE TKDE, JSS and DMKD
